

Day 2 (26th of March)	
08:30	Registration
09:00	Opening remarks
09:15	Pau Esteve Monja (Young European Biotech Network) Workshop: Beyond the Lab: Transforming Ideas into Market-Ready Innovations
10:00	Prof. Reinoud Gosens (University of Groningen) Research at the Department of Molecular Pharmacology
10:15	Prof. Guinevere Lageveen-Kammeijer (University of Groningen) Research at the Department of Analytical Biochemistry
10:30	Prof. Joshua Jackman (TNRC, Sungkyunkwan University) Research at the School of Chemical Engineering
10:45	Coffee Break
11:00	Andrea Bošković (S-DISCO) Research at the Department of Molecular Biology of Viruses
11:15	Dr. Amaury Farce (University of Lille) Research at the Faculty of Pharmaceutical Sciences and Biology
11:30	Dr. Priscille Brodin (INSERM) Research at the French National Institute of Health and Medical Research
11:45	Prof. Emmanuel Ogbadoyi (Federal University of Technology Minna) Research at the Department of Biochemistry
12:00	Lunch Break
13:00	Post Lunch Re-introduction
13:15	Professor Evelien Wynendaele (Ghent University) Research at DruQuar Laboratory
13:30	Prof. Frank Klont (University of Groningen) Research at the Department of Clinical Pharmacy and Pharmacology
13:45	Prof. Rose Hayeshi (Preclinical Drug Development Platform) Research at Preclinical Drug Development Platform
14:00	Prof. Serge Van Calenbergh (Ghent University) Research at the Laboratory of Medicinal Chemistry
14:15	Prof. Anna Salvati (University of Groningen) Research at the Nanomedicine and Drug Targeting Department
14:30	Prof. Christoffer Aberg (University of Groningen) Research at the Pharmaceutical Analysis Department
14:45	Coffee Break
15:00	Prof. Matthew Groves (University of Groningen) Research at the Department of Drug Design
15:15	Prof. Nicolas Willand (University of Lille, online) Research at the department of organic chemistry
15:30	Dr. Alessia Michelotti (Bioversys) Research at Bioversys. Topic: "Atom economic transformations of Rifamycins to extend their spectrum of activity to Gram negative bacteria"
15:45	Closing Remarks
16:00	End of Day 2

Day 1 (25th of March)	
08:30	Registration
09:00	Opening remarks
09:15	Prof. Emmanuelle Lipka-Belloli (University of Lille) Plenary Lecture: "Preparative supercritical fluid chromatography as a green purification method : A recent overview".
10:15	Coffee Break
10:45	Dr. Lena Thomas (My Green Lab) Keynote lecture: "Sustainability as a Pillar of Pharma: The My Green Lab Approach"
11:10	Dr. Djork-Arné Clevert (Pfizer) Keynote lecture: "Machine Learning in Drug Discovery"
11:35	Dr. Leonardo De Maria (AstraZeneca) Keynote lecture: "New Therapeutic Modalities: Challenges, Opportunities, and Sustainability"
11:55	Lunch Break
13:20	Presentation from Polpharma
13:30	Dr. Mohammad Neaz MORSHED (Erasmus Mundus Association) Workshop: Road to PhD after your Erasmus Mundus Master
14:35	Prof. Ioana Ilie (University of Amsterdam) Keynote lecture: "Cracking the Code: A computational expedition into neurodegenerative proteins and innovative therapies" and Research at UVA
15:00	Dr. Wim Aelterman (J&J) Keynote lecture: "Sustainability in chemical process R&D" and Research at J&J
15:25	Coffee Break
15:50	Presentation from Altium
15:55	Prof. Dr. Przemysław Bąbel (Institute of Psychology, Jagiellonian University) Keynote lecture: "How does placebo work? Learning mechanisms of placebo effects"
16:20	Prof. Rong Huang (Purdue University) Keynote lecture: "Rational Discovery of Potent and Selective Inhibitors for Methyltransferases"
16:45	Dr. Radek Paruszewski (Klöckner Pentaplast) Keynote Lecture: "Solid dosage drugs sustainable packaging solutions: potential upcoming regulations and sustainability definitions"
17:10	Closing Remarks
17:20	End of Day 1
